MANN'S

PARCHMENT COPYING PAPER.

(TRADE-MARK REGISTERED.)

This Parchment Paper is **MUCH STRONGER** and shows a **CLEARER COPY,** than any other ever made for the purpose. The Ink is **LESS LIABLE TO SPREAD,** and can be written upon with a pen.

DIRECTIONS FOR COPYING.

Place a piece of blotting-board under the leaf of Copying Paper; then, with brush, wet the leaf. Take off surplus water with another sheet of blotting-paper; then place the written letter on the leaf, (leaving the blotting-paper under the leaf to take up any excess of water that may yet remain,) place it in the press, and in 10 or 15 seconds a perfect copy will be secured.

The leaves WILL DRY AS SMOOTH AS SILK by placing the book in the Press after Copying.

☞Place the oil sheets between the copies just made, to prevent blending or setting-off.

Another way, when many Letters are Copied.

Procure a tin or iron box with lid to hold 20 blotting pads.—(Boxes furnished if desired.)

Dip half the lot of blotters in water, let them drain off a few moments; then place a dry blotter between each wet one, give them a few minutes' squeeze in Press and they will remain wet for three days; then take an oil sheet, place it to the left; then lay a wet blotter; then turn leaf of Copying over on blotter; then lay your letter on; then another oil sheet, and so on, and you can copy all your letters at one time, thereby saving time. With a little care and experience as to wetting at first, you will be so well pleased, as never to go back to old way.

→Hill's Blotter Baths are the best known for this mode.←

Hon. R. E. Preston,

Director of the Mint,

Washington, D. C.

Sir:

In accordance with instructions contained in your letter of the 15th instant, we will begin coining double eagles tomorrow and continue until the supply of gold bullion now on hand is exhausted.

We are preparing to carry out the instructions given us when I was in Washington and commence the first day of August to coin at the rate of one million, three hundred thousand (1,300,000) silver dollars per month.

Very respectfully,

Herman Kuhn

Superintendent.

Sir:

I will thank you to amend the authority granted April 1st, 1896, for the purchase of one (1) ore Crusher, Laboratory size, from C. S. Solomon Co., in amount one hundred and twenty-five dollars ($125.)

The size of Ore Crusher now required is #0, costing four hundred dollars ($400.) to be paid from the "Incidental and Contingent Expense Appropriation, 1896".

Mailed herewith please find recommendation of the Melter & Refiner.

Very respectfully,

Superintendent.

Mark

July 18, 1896.

Hon. Herman Kretz,
Superintendent.

Sir:

On March 31st last, this Department made requisition for a #00 Gates Crusher at a cost of $125. This machine is in place but is found to be too small for effective service. The Agent offers to replace it with the next larger size machine, at the net price of $400., and take the smaller one on account, at cost. ($120.)

I respectfully recommend that the exchange be made.

Very respectfully,

F. Kretz.
Melter & Refiner.

Sir:

In reply to your favor of the 18th instant, please find Statement below of Gold and Silver Bullion in my hands at the close of the Annual Settlement June 30, 1896.

Gold.	Std.Ozs.Dec.
Amount received from M & R in settlement,	369,282.270
" " " Coiner " "	5,405.062
June'96 Deposits and Re-deposits,	48,432.832
Gold in Silver Deposits for June'96,	84.043
Gold in Superintendent's Grain Bar,	8.351
Proof Gold,	56.699
Total,	423,269.237

Silver.	Std.Ozs.Dec.
Amount received from M & R in settlement,	1,452,133.27
" " " Coiner " "	409,216.14
Silver in June'96 Gold Deposits & Re-deposits,	11,148.73
June'96, Silver Deposits,	8,888.77
Treasury Purchases on Storage,	127,022,180.19
Fine Bars,	482.32
June'96, Mutilated Coin Purchases,	48.87
Silver in Superintendent's Grain Bar,	9.52
Total,	128,904,107.81

(2)

In the Statement of Gold Bullion contained in your favor, you have failed to take up the item of Proof Gold, have taken the Standard weight of silver contained in the Superintendent's Grain Bar instead of the Standard weight of Gold, besides the total of your Statement should be 423,213.727 standard ounces instead of 423,213.707 standard ounces, making a difference of 55.51 ounces, which will disappear when you make the corrections indicated.

Very respectfully,

Superintendent.

The Mint of the United States at Philadelphia,
Superintendent's Office,

July 20, 1896.

Supervising Architect,
Treasury Department,
Washington, D. C.

Sir:

The exigency of the Service required the immediate employment of Boiler Inspectors from that Bureau of this City, also the employment of competent persons from the outside, to remove the scales, clean flues, base of stack and the duct. The above work can only be done during the "Shut down" of this institution, when the Annual Settlement and the Repairs are made. To prevent interference with the operations of the different departments, it has been the custom to have the boiler inspected by those authorized by law (a copy of which is herewith enclosed). It would in a measure be impracticable to have the Engineer and Firemen clean the boilers and flues, all those who are not needed to assist in making repairs are granted leave of absence, as during the "Shut down" is the only time they can be spared.

I herein send you duplicate vouchers signed in favor of the Boiler Inspectors and Cleaners, which I will thank you to approve and send checks in payment of same.

Very respectfully,

Custodian.

I beg to forward herewith enclosed two (2) standard silver dollars from delivery No. 141 of $22,000. and two (2) half-dollars from delivery No. 142 of $21,000.

Very respectfully,

Herman Kurtz
Superintendent.

The Mint of the United States at Philadelphia,
Superintendent's Office.

August 8, 1896.

Mr. H. E. Bradon,
Assayer in Charge Assay Office U. S. at
Helena, Montana.

Sir:

In reply to your letter of the 26th ultimo received this morning, I beg to say that the bar was very brittle and it was found to be impossible to get agreeing samples. The average of assays made was however about 2/1000 below your invoice. A remelt was ordered and the results then came up to yours in fineness with the loss in weight indicated. The melt while in the pot and indeed while in the mould continued to bubble and give off fumes suggesting some volatile impurity. Was any part of the mass derived from cyanide gold? If so the presence of zinc is to be suspected. This would not only go off, but tried to carry some gold with it, as of course you are aware.

It would be advisable to toughen such deposits before settlement is made with the depositor, in order to avoid the adjudication of necessary loss between the different Government institutions.

Very respectfully,

Superintendent.

U. S. National Museum,
No. 60.

Smithsonian Institution

Office of the Secretary.

Washington, D. C., June 29,1896.

Messers.Chas.S.Solomon and Company,
#1015 and #1017 Sansom Street,
Philadelphia,Pa.

Sirs:

In view of the public exigency which requires the immediate performance of the work,Department letter of the 27th instant accepting your proposal of the 24th instant,in amount eight hundred and forty-nine dollars and eighty-eight cents ($849.88),the lowest of five received,for furnishing all the labor and materials required to repairs the heating apparatus in the U.S.Mint building,at Philadelphia,Pa.,in strict accordance with the specification,is hereby confirmed.

You are requested to notify the Custodian of the building,in writing,of the time within which you propose to complete the work, and if the time stated meets with his approval,he will be authorized to accept the same as a condition of your contract.

You will be required to forward here through the Custodian, a certified check,in amount eighty-five dollars ($85.00),drawn to the order of the Treasurer of the United States,which will be held as a guarantee for the faithful fulfillment of the contract.

Upon satisfactory completion of the work,the Custodian will be authorized to submit a voucher in duplicate for the expense,and payment will be made from the appropriation for "Heating Apparatus for Public Buildings,1896".

Respectfully yours,

Acting Secretary

Sir

I have the honor to report that the Contractors for repairs and necessary supplies and alterations for steam and heating apparatus as per specifications and award to Chas S. Severns Co, are completed, and find that all work and material was furnished promptly and finished in a good workmanlike manner. "Reliance" Water Columns were placed on the boilers which I think the best, Attached to Cochrane feed water Heater I placed a steam pipe, Pipe and fittings furnished without charges, Labor performed

4/ C. E. 2

by mechanics in the Mine.
A change was made from the specification
marked No. 4. running a new drift pipe
from 6" Steam pipe. The change made
was running a drift to the pipe connected
with the exhaust head and connecting
another pipe running to the sewer.
Ten (10) Automatic Air Valves in excess
of the number specified, in specification
Marked No. 7. was furnished without
charge from the contractor.
Specification Marked No. 10. "Replacing Radiator
in Ladies Toilet Room. This work was
performed and coils furnished by
no Extra Charge by the contractor
Approved

Very Respectfully
John P. Richards

To the Clerks and Employes of the Philadelphia Mint.

Hereafter each clerk or employe in this institution when the duties of their position will permit, will be granted twenty-one days leave of absence with pay, for sickness and other causes, in addition to Sundays and holidays in each fiscal year.

Clerks or employes entering the service after the commencement of the fiscal year will be allowed pro rata leave.

All absence for any cause beyond twenty-one days, will be without pay except in exceptional and meritorious cases where the limit would be a peculiar hardship. Exceptional and meritorious cases will be considered and decided in each individual case by the Superintendent.

Superintendent.

Approved.

August 31st, 1896.

Hon. R. E. Preston,
Director of the Mint,
Washington, D. C.

Sir:

In compliance with your letter of the 28th instant I enclose herewith letter of the Engraver containing such information as you desire.

As per your request I return Mr. McCutcheon's letter.

Very respectfully,

Superintendent.

The Mint of the United States at Philadelphia.
Superintendent's Office,

August 31st 1876

Hon. R. E. Preston,
Director of the Mint,
Washington, D. C.

Sir:

My attention has been called to the fact that striking the experimental coin for you was a violation of Rules and Regulations, see pages twenty and twenty-one. Do you not think the resolution takes precedent and that we are fully protected by same?

Very respectfully,

Superintendent.

The Mint of the United States at Philadelphia,
Superintendent's Office.

August 31st, 1896.

Hon. R. E. Preston,
Director of the Mint,
Washington, D. C.

Sir:

I have forwarded this day by registered mail schedules of proposals for supplies for the fiscal year ending June 30, 1897, together with a schedule of bids alphabetically arranged, which I submit for your approval.

With but few exceptions I recommend the lowest bidders, deferring in some cases to the recommendations of the Melter and Refiner, Coiner and Assayer and same are enclosed.

The award desired is marked upon schedule of bids enclosed in a red circle.

In Class No. 1, Die Steel.

Received no bid for this special steel for dies. A special bid was requested from Messrs. Alex. Foster & Co., manufacturers of this steel, recommended by Mr. Barber, Engraver. The Company sent their offer and agreed to furnish for the current fiscal year 1897, at eighteen and one-half cents per pound, I suggest that the bid be accepted.

In Class No. 2, Special Ingot Copper.

Received no bid for special Ingot Copper for alloy, under

The Mint of the United States at Philadelphia,
Superintendent's Office,

_____, 189 .

advertisement of proposals. The Baltimore Copper Smelting and Rolling Co., Baltimore, Md., by request made a special proposal and will furnish for the fiscal year 1897, at eleven and one quarter cents per pound, as recommended by Dr. Tuttle, Melter & Refiner, I suggest that the proposal be accepted.

In Class No. 10, Nitric Acid 40°B, best quality, it is not advisable to accept the lowest bid as no sample was furnished and it is an important consideration that there should be a mutual understanding between the Melter & Refiner and the Manufacturer as a Contractor as to the quality of the acid to be furnished. It is recommended by the Melter & Refiner that the award be made to the Moro Phillips Chemical Co.

Also Class No. 10, Bone Ash, best quality.

I do not think it advisable toaward to the lowest bidder, the Assayer and Melter & Refiner have experienced considerable trouble in getting a good bone ash, having at times rejected many samples, it is recommended by these operative officers who alone use the article, that the bid of Messrs. Shoemaker & Busch be accepted, which I approve.

In Class No. 14, Egine & Cylinder Oils.

It is recommended that the bid of Crew Levick Co., be accepted for "Glade" Extra Engine Oil at forty cents per gallon and "Challenge

The Mint of the United States at Philadelphia,
Superintendent's Office,

_____, 189

Cylinder Oil " at sixty cents per gallon as per letter of the Chief Engineer mailed herewith.

In Class No. 18, Borax Soap special quality.

This soap used exclusively in the Coining Department for washing the grease from the planchets and clippings, it is not deemed best to accept the lowest bid. It is recommended that the bid of the Specialty Soap Co., be accepted as per letter of the Coiner.

In Class No. 21, Leather Belting.

This item is one of the greatest importance, requiring the best material that can be furnished and purchased. Upon due investigation and the danger and expense of putting to test I think it best and recommend the award for belting for all sizes enumerated, to the firm of Alexander Brothers, Philadelphia, for the reason that all the belting furnished for several years by this firm, has given entire satisfaction and we can feel safe and know that we are free from accidents when the best quality is used.

In Class No. 26, Ice.

The four bidders for ice are the same, ~~six~~ five dollars and sixty cents per ton. The Hancock Ice Company has been furnishing this institution with ice for the months of July and August at last years price, three dollars and fifty cents per ton. I made an effort to have them continue for the balance of the fiscal year ending

(4)

The Mint of the United States at Philadelphia,
Superintendent's Office,

_____, 189 .

June 30, 1897, at the same figure, which they declined. I recommend for their liberal treatment some consideration for them.

The Commercial Ice Company is strongly recommended as a good and reliable Company by many of your friends. I would thank you to make the awards for ice yourself.

In accordace with Revised Statutes, Rules of the Department and Bureau of the Mint Regulations, I have endeavored to comply with all the requirements.

Very respectfully,

Superintendent.

The Mint of the United States at Philadelphia,
Superintendent's Office,

August 31st 1896.

Hon. R. E. Preston,

Director of the Mint,

Washington, D. C.

Sir:

I herein transmit letter of the Coiner recommending the transfer of Edmund Heins from the position of Workman in the General Department at $2.75 per diem to that of an Annealer in the Coiner's Department at $3.00 per diem, also that John Mahoney, Workman in the General Department at $2.75 per diem be transferred to the Coiner's Department as Helper at $2.90 per diem. To take effect September 1st, 1896.

I recommend the above and submit same for your approval.

Very respectfully,

Superintendent.

The Mint of the United States at Philadelphia,
Superintendent's Office.

Assistant Treasurer U. S.,
New York City, N. Y.

Sir:

In reply to your letter of the 27th instant I beg leave to inform you that all coin sent here for recoinage is counted under my personal supervision. I saw the contents of the bag that was thirty-one quarters short, and had it counted by three different reliable and expert counters, in each count the result was the same. Knowing the accuracy of the count we did not weigh the coin. I held the coin intact until a few minutes before your letter came to hand this A. M. Had your letter reached me sooner I could have given you the exact weight of each bag, unfortunately the Melter had mixed it as soon as he received it. Will in future weigh the contents of each bag if you so desire.

I assure you the count is absolutely correct and will thank you to remit shortage as reported in my letter of the 24th instant.

Very respectfully,

Superintendent.

R. E. P. No. 2.

The Mint of the United States at Philadelphia,
Superintendent's Office,

I recommend that all bids be rejected and will thank you for authority to continue under the old contract with the Scovill Manufacturing Co., for one cent bronze blanks at 19-94/100 cts. per pound, for the balance of the fiscal year ending June 30, 1897, say, for two hundred and fifty thousand lbs., to be delivered as required.

In making this recommendation I do it for the best interest of the Government.

Very respectfully,

Superintendent.

Mint of the United States at Philadelphia, Pa.

Superintendent's Office, October 12, 1896.

Sealed proposals will be received at the Office of the Superintendent of the U. S. Mint at Philadelphia, Pa., until 12 M., Thursday October 29, 1896., at which time and date all proposals will be opened, to supply the Mint subject to the approval of the Director of the Mint, with one hundred thousand pounds of one cent blanks, properly annealed, cleaned and milled and ready for the press, comprised of ninety-five (95) per centum of copper and five (5) per centum of tin and zinc in equal proportions; the blanks to be of the proper ductility and within the legal tolerance of weight; the fineness and proportions of the metals to be determined by mint assay. All blanks not suitable for coinage purposes to be rejected. Sample blanks can be had on application to the Superintendent of the Mint at Philadelphia. The right is reserved to reject any and all bids. No bids will be considered unless made by manufacturers who have capacity for making above blanks.

Proposals should be endorsed "Proposals for one cent blanks," and addressed to "Superintendent United States Mint, Philadelphia, Pa."

Superintendent.

The Mint of the United States at Philadelphia,
Superintendent's Office,

November 27, 1896.

Hon. R. E. Preston,
Director of the Mint,
Washington, D. C.

Sir:

I have the honor to submit a report of the operations of this Mint for the fiscal year ending June 30th, last.

Herewith you will find statements which set forth in detail the operations of the various departments. The usual reports as required by the Regulations of the Treasury Department, and special directions from you have heretofore been supplied. Should further information be desired on any part of the workings of this Mint for the period stated, it will afford me pleasure to furnish it.

The statements herewith forwarded, are scheduled as follows, viz:

A. Standard ounces and value of Gold and Silver deposited.

B. Statement of Deposits, Purchases, and Re-deposits of Gold and Silver Bullion during the fiscal year ending June 30th, 1896.

C. Domestic Coin deposited.

D. Foreign Coin deposited.

E. Bars manufactured.

F. Gold Coin received on transfer orders for recoinage.

G. Silver Coin received on transfer orders for recoinage.

H. Minor Coin received on transfer orders for recoinage.

R. S. P. No. 2.

I. Total Minor Coins of all kinds received from various Sub-Treasuries for recoinage.

K. Minor Coinage Blanks, bronze and nickel, purchased.

L. Gold and Silver Bullion received, including Surplus Bullion.

M. Quantity of Gold and Silver operated on by Melter and Refiner.

N. Melts made by Melter and Refiner.

O. Table of value of Gold and Silver prepared for use in the Industrial Arts.

P. The Operations of the Refinery.

Q. Report of number of Assays made.

R. Report of Dies made in 1895.

S. Gold and Silver in ounces operated on by the Coiner.

T. Number of Coins with their value produced.

U. Gold Wastage.

W. Silver Wastage.

X. Medals manufactured.

Y. Report of Sales of Medals and Proof Coins.

Z. Shipment of Gold, Silver, and Minor Coins in bags, boxes, and kegs.

Among the minor operations which have added to the efficiency of the establishment or the comfort of the large number of employes now engaged here at work, a few may be worthy of mention.

The result of the purchase of a Vertical Ore Crusher has proved to be an advantage over the former and somewhat primitive process of placing the ore under the rolls in the hopper of the sweep grinding mill, At a cost of only four hundred dollars it enables the

R. E. P. No. 3.

reduction and separation of such dross as the Mint may receive; to be done with greater speed and efficiency.

Improvements have been made to the steam boilers, by placing three water columns with modern gauge appliances. Correctly noting the condition of the water in the boilers leads to economy of fuel, and in a more regular firing of the furnace and adds to the safety of the employes.

An improved water heater placed in the engine room has resulted in material advantage. This important auxiliary to the boilers has been of general benefit. The old heater never fully performed the services required. New exhaust pipes have been supplied to the engines, the old ones having rusted to an extent that became dangerous. A large steam coil radiator has been set in the front corridor. By it the air is warmed as it circulates, and rising to the open stairways leading to the offices, adds sufficiently to the temperature necessary to the comfort of the employes. A like radiator in a retiring room contributes to comfort. The steam radiators throughout the building have been supplied with drip and vent cocks which improves the circulation and regulation of heat so that an even disposition of it can be maintained. The improvements to the steam appliances as enumerated, were put in under the direction and authority of the Supervising Architect of the Department.

After an accumulation of eight years, the wells of the Melter and Refiner's Department have been cleaned. These wells receive the washings of the melting room from the hands of the employes, from cooling ingots, &c. An Excavating Company was employed to empty

R. E. P. No. 4.

them. The contents were put in barrels, the residue dried, ground and reduced to sweeps, yielding thirty-five barrels. The product from this operation was

	Weight.	Value.
Standard Gold,	149.348 ozs.	$2,778.57
Standard Silver,	176.57 "	105.97
	Total value,	$2,884.54

Sum paid for cleaning wells $120.00.

On recounting the silver dollars stored in the large vault the bags are found to be mildewed, and many broken, the result being that the coins in many instances are loose, scattered throughout the piles and cast to the floor. At a moderate estimate at least four millions of them will be found to be rusted, mutilated and totally unfit for circulation making recoinage of them necessary. I recommend suitable provision for recoining them.

As each bag is recounted it is weighed and the value, weight, date, designation of vault and the name of the counter written upon a linen tag and attached. It is then placed in a wooden box, the box being numbered to correspond with the number on the tag, each box thus holding a one thousand dollar bag. The box is then nailed and sealed and it, and the contents registered in a book, sixteen thousand of these boxes which will last many years, were purchased. This course will preserve the bags, simplify a future count, and enable inaccuracy of count if there be any traced to its source.

I take pleasure in commending the faithful services of the departmental officials, the clerical force and employes generally.

R E. F. No. 5.

Their prompt, courteous and conscientious attention to the public business has resulted in greater efficiency in the work committed to their charge and satisfaction to the public.

Very respectfully,

Superintendent.
